Superintendent's Report

To the School Board and the Citizens of the School District of Pittsburg.

Introduction

With the General Court now in session, and with a relatively large number of educational bills as well as amendments to existing laws in this field to be acted upon, a considerable amount of what takes place beneath the State House Dome during the coming weeks and months will be of significance to education. Several of these proposed measures, if passed, will affect very materially the administration and cost of operating our schools. Among the bills might be cited those relative to the establishment of minimum salaries for teachers, continuing contracts for the same

group, and the determination of a bonded indebtedness limit for districts borrowing money. Two of the amendments to be considered are of particular interest to us, too, namely, one calling for compulsory school attendance of pupils in all districts until sixteen years of age regardless of grade completed up to that time, and a closely related one calling for the transportation of these same pupils to the school to which they are assigned to at district expense.

As far reaching though as may be the effect of possible positive legislation upon these bills and amendments which will tend to still further increase our mounting educational costs, perhaps of even greater significance to us will be the action taken in respect to increasing financial support to local school districts from the state level. In so far as can now be seen, this seems to be the only feasible way the tax burden of the property owner can be alleviated to any appreciable extent in paying for the high cost of conducting our schools. The recognition of this need for additional state aid is wide spread, even by the Governor, although there is disagreement between him and the many sponsoring organizations as to how more revenue for this purpose is to be raised. Whatever may be the source finally decided upon, a sales or some other form of tax, from which this money is to be obtained, and how much, there is bound to be a keen interest in the developments when this topic comes up for deliberation by the members of the General Court during this legislative session.

Teachers

With the shortage of teachers already reached alarming proportions, and with no indication of relief in sight for this serious condition, the district is extremely fortunate to have five veteran teachers return to work with us again this year, and, also, to find three new teachers to replace those who did not return. Mrs. Clarese W. Swetson and Raymond C. Smith, graduates from Plymouth Teachers College in the Class of 1954, have replaced Mrs. Nancy E. Ouellette and Mrs. Mae F. Thibeault. Miss Barbara J. Pillsbury, who com-

pleted her undergraduate work at the University of Maine last June, fills the position formerly held by Mrs. Vera F. Gilpatrick. The teachers in Grade 7-12 with respective subjects taught are Principal Francis C. Wilson - Shop, Chemistry, and Athletics; Helen Barclay - English; Clarese W. Swetson - Mathematics, Typewriting, French, Dramatics, and Athletics; Raymond Smith - Civics, Sociology, Geography and History; Barbara J. Pillsbury - Home Economics, General Science, Dramatics, and Athletics, also, operates School Lunch Program. Teachers in the first six grades are Eva S. Scott, Grades 1-2; Esther H. Bean, Grades 3-4; and Doris G. Fissette, Grades 5-6.

School Nurse—Health

The importance of the work done by our school nurse, Mrs. Ethel S. Sturgis, in constantly checking the health of our children, in conducting follow-up work when necessary, and in making arrangements for much needed dental work, is evidenced by general good attendance throughout the year.

We are sorry that, due to his health, it has been necessary for Dr. F. Hammond Dickson to discontinue the Dental Clinic. The work that he has done year in and year out over the long period of time that he has been serving the boys and girls in this area has meant much to a great many former as well as present pupils enrolled in our schools.

It is very much hoped, that with the setting-up of another dentist office in Colebrook, that it will again be possible to make arrangements so that our school children may continue to receive much needed dental treatment at a nominal cost and convenience to them. Present plans are to again conduct a pre-school clinic in the spring, also, as it helps materially to determine the general physical condition of children planning to enter First Grade in the fall in time to receive medical attention when necessary.

Enrollment and Attendance

With the transportation now of the pupils from the Hall Stream Section to the Pittsburg School, the enrollment has increased still further this year. At the present time there are 40 pupils in Grades 9-12 as compared to 31 last year and 28 the previous year. In Grades 1-8 the count shows a like increase, for 95 are enrolled as compared to 89 and 81 during the respective two preceeding years. The assignment, too, of all pupils within the district to the home school means that there are no longer any tuition pupils attending schools outside the district. In contrast to this reduction, however, the number of tuition pupils from Clarksville has increased, as there are 6 presently enrolled in the High School as compared to 3 last year, while the number at the Elementary School remains the same, namely, 1. The average percentage of attendance during the past year was 95.67 in Grades 1-6; 97.26 in Grades 7-8; and 96.07 in Grades 9-12. The average number of tardiness per pupil for the same groups was .07; .08; and .26 respectively. This excellent attendance record and small number of tardiness for the whole school is commendable.

Notes on the Budget

The School Board's Budget for 1955-56 is \$62,-633.00. Of this amount \$48,898.00 is for operational expenses and \$13,735.00 for principal and interest payments on the bond and serial note issues to finance the construction and equipment of the new school building. The budget for the current year is \$61,423.00 of which \$46,398.00 and \$15,025.00 are for operating cost and bond and serial note issue obligations respectively. Since no state aid is anticipated, even with the likelihood that the General Court will increase financial aid to local school districts from the state level, the estimated income is confined to a possible \$1,000.00 from tuition which leaves a balance of \$61,633.00 to be raised by taxes by the town.

Land—Building—Equipment

With the practical completion of the grading with

gravel of the large area in back of the school building, and with the swing units moved from what is now the front lawn and erected on one side of this graded space, the district can well be proud of having valuable playground and recreational space for year around use comparable to any in the state. It is now possible to play games and to carry on activities best suited to the several age groups on different sections simultaneously.

Thanks to the excellent state of maintenance in which the building is kept, only a few minor repairs have been necessary during the past year. As has been said before, much credit is due the janitor, teachers, and pupils for the attractive overall appearance of the structure, now in its fourth year of use, which is still comparable to that of a new school building.

Due to the continued policy of keeping the school well equipped, only a relatively few items of equipment have been needed during the past year. A typewriter was added to the Commercial Room, a vacuum cleaner was purchased as a replacement, and a steel ladder was installed on the north side of the building so that the roof may be reached now without undue difficulty.

Miscellaneous

The fine musical performances turned in by the Pittsburg Band at such functions as the Graduation Exercises, Old Home Day, Guides' Show, Centennial Parade of the New Hampshire Education Association, and School Concerts bespeak the accomplishments made by this keenly interested and hard working group. The beautiful new uniforms, also, added greatly to the overall effectiveness of these programs. Incidentally, it should be pointed out here that a large portion of the cost of these new uniforms was paid for with donations received from parents, friends and interested supporters in the community. It is due to the continued support of these parents too, in partially paying for the music lessons received by band members, and to the willingness of Lynwood S. Peck to come to Pittsburg evenings to give instruction that the present degree of attainment has been reached.

The increased number of pupils taking advantage of the School Lunch Program this year, indicates the popularity of this school function which plays such an important role in the overall morale of the school. These balanced meals contribute materially, also, to the good health and physical fitness of all who take part.

Conclusion

I wish to thank the members of the School Board, parents, teachers and citizens for all the help and cooperation received in our work together to keep standards high in our schools.

Respectfully submitted,

ERNEST B. DANA

The starred items are required by law to be raised and determined by the proper authorities. The salaries of the district officers are determined by the district. A relationship, which takes into consideration school membership and assessed valuation, determines the proportionate share of the salaries paid for each district for personnel employed by the supervisory union. The State Treasurer reports the amount of the percapita tax. The Retirement Board assesses the amount for Teachers' Retirement.
